HELPS WHOLE FAMILIES

Attention, MOTHERS, to what every doctor knows to be a fact, and what they say to avoid

If you have children who are occasionally constipated, you should know this.

If you are "not yourself" because of a constipated condition, don't blame it on your blood condition, or your age, but first try this treatment that safely relieves sluggishness in children or adults.

The Proper Treatment

You can't safely relieve the bowels with any medicine if you can't regulate the dose. To regulate dosage, you should have a liquid laxative.

When necessary to repeat, you can gradually reduce the dose. And that is the secret of safe relief from a sluggish, constipated condition at any age.

A liquid laxative can be measured. Its action can be thus controlled. If properly made, of such natural laxative elements as senna and cascara, it forms no habit—even in the youngest child. And such a laxative will help the bowels to help themselves.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative containing

BE CAREFUL

IF any laxative is dipsetie (makes you thirsty).

IF it affects your appetite.

IF you need more today than the first time you took it.

IF it drains the system (by too watery a movement).

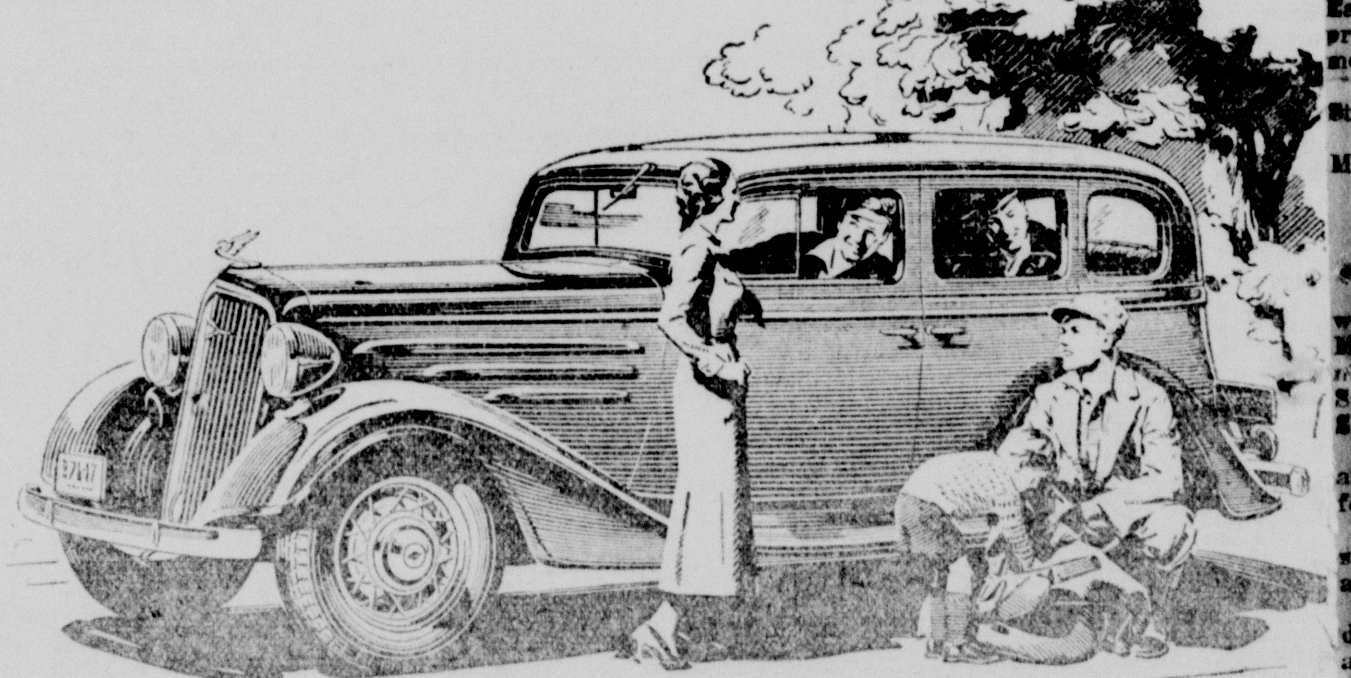

IF a bad "burning" is felt.

IF there is severe griping.

Boy Pursues Ancient Sport of "Falconry"

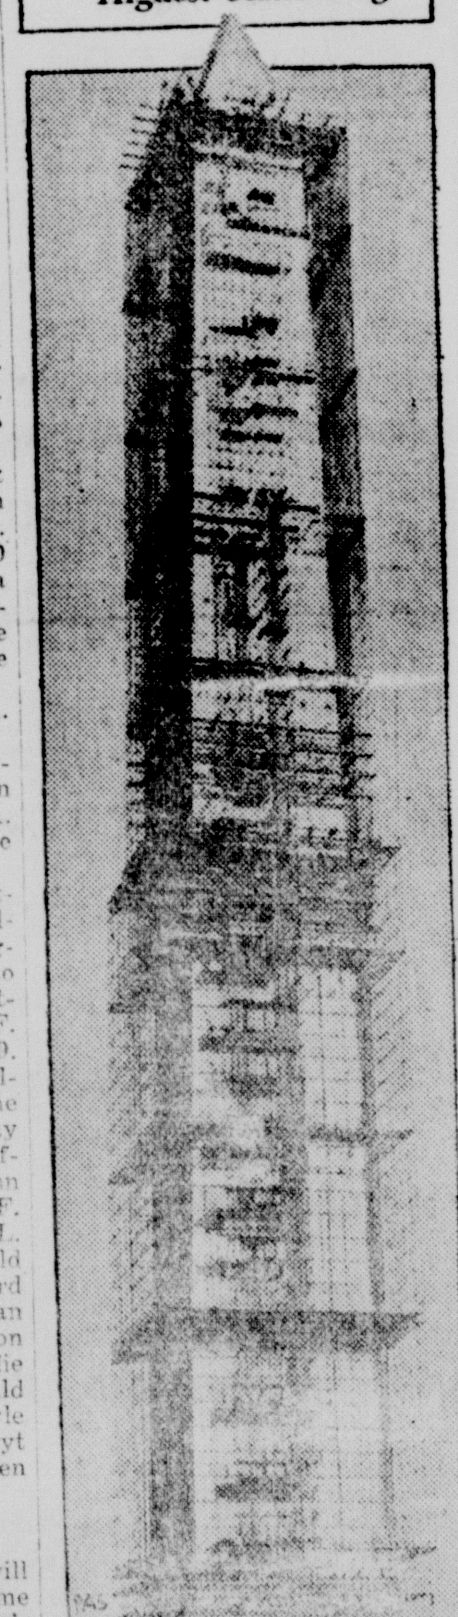

LOS ANGELES . . . O. E. Cannon (above), is reviving a sport of
"yo goode olde dayes" known as falconry, the sport of kings. He is
shown here with "Ethel," a trained Cooper's hawk falcon which he
captured in Mexico. Cannon takes "Ethel" on hunting expeditions for
rabbits, chipmunks and other small animals.

MORE ABOUT Cattle Program

(Continued from Page 1)

sold at any price, Mr. Barton
continued.

Farmers as a whole, the County
Agent said, are well pleased with
the Government cattle program
even if they were not able to
get in the other 7,000 head that
were signed up to be sold. Many
farmers state that they used the
program to cull their herds, de-
crease their demand for feed this
winter, and feel that they will
be greatly benefited by an in-
creased demand for cattle in the
future and thereby get a better
price for their cattle as well as
dairy stock and products.

As checks arrive at the County
Agent's office, farmers are noti-
fied. It has taken from three
to four weeks for checks to be
received.

Mr. Barton states that a num-
ber of persons have asked why
all the cattle offered for sale to
the Government were not taken,
and in answer to this, he gives
the following from State Head-
quarters:

When the cattle purchase pro-
gram was begun the latter part
of May, no one anticipated that
the drought would be as wide-
spread and disastrous as it was,
or that purchases would be made
in anything like the volume that
finally developed. As it appeared
for some months that the funds
available for purchases would be
sufficient to remove all the ani-
mals that farmers cared to sell,
no limitations were placed on the
earlier buying. As the widespread
nature of the drought developed,
and the size of the purchase pro-
gram became finally to fix very
definite daily buying quotas, total
quotas for the week, and State
and county allotments.

A few weeks ago when it be-
came apparent that the limit of
available funds would soon be
reached, buying was shut off in
some States, and very sharply
limited in others with the result
that much of the purchase work
was left in a rather unfinished
shape. In some cases certain in-
dividuals had sold rather lib-
erally from their herds, while others
usually in need of making re-
ductions had not been given an

opportunity to make any sale.
Similar conditions prevailed with normal
reference to counties in some weight
States, no purchases having been made
made in certain counties while in
others the purchase program was
well advanced. In a number of
instances additional allotments
have been made to the States
to give State and county direc-
tors some opportunity to equalize
the discrepancies in buying be-
tween counties or between in-
dividuals.

If anyone had realized at the
beginning just the proportions
which the purchase program would
assume, or the area in which it
would be necessary to conduct it,
the work could have been carried
on in a much more orderly man-
ner, definite allotments could
have been made, and many of
the inequalities now existing could
have been avoided. It is realized
in many cases County Agents,
State Directors, and other con-
cerned with the purchase pro-
gram have been embarrassed by
the abrupt discontinuance of pur-
chases in certain States and
counties, and that Agents are
being subjected to considerable
unmerited criticism from this
cause.

This difficulty is greatly re-
gretted, but do not see how it
could have been avoided in view
of the progressive nature of the
drought, and the development of
the purchase program.

MORE ABOUT
Cattle Program
(Continued from Page 1)

sold at any price, Mr. Barton
continued.

Farmers as a whole, the County
Agent said, are well pleased with
the Government cattle program
even if they were not able to
get in the other 7,000 head that
were signed up to be sold. Many
farmers state that they used the
program to cull their herds, de-
crease their demand for feed this
winter, and feel that they will
be greatly benefitted by an in-
creased demand for cattle in the
future and thereby get a better
price for their cattle as well as
dairy stock and products.

As checks arrive at the County
Agent's office, farmers are noti-
fied. It has taken from three
to four weeks for checks to be
received.

Mr. Barton states that a num-
ber of persons have asked why
all the cattle offered for sale to
the Government were not taken,
and in answer to this, he gives
the following from State Head-
quarters:

When the cattle purchase pro-
gram was begun the latter part
of May, no one anticipated that
the drought would be as wide-
spread and disastrous as it was,
or that purchases would be made
in anything like the volume that
finally developed. As it appeared
for some months that the funds
available for purchases would be
sufficient to remove all the ani-
mals that farmers cared to sell,
no limitations were placed on the
earlier buying. As the widespread
nature of the drought developed,
and the size of the purchase pro-
gram became finally to fix very
definite daily buying quotas, total
quotas for the week, and State
and county allotments.

A few weeks ago when it be-
came apparent that the limit of
available funds would soon be
reached, buying was shut off in
some States, and very sharply
limited in others with the result
that much of the purchase work
was left in a rather unfinished
shape. In some cases certain in-
dividuals had sold rather liber-
ally from their herds, while others
equally in need of making re-
ductions had not been given an

opportunity to make any sale.
Similar conditions prevailed with
reference to counties in some
States, no purchases having been
made in certain counties while in
others the purchase program was
well advanced. In a number of
instances additional allotments
have been made to the States
to give State and county direc-
tors some opportunity to equalize
the discrepancies in buying be-
tween counties or between in-
dividuals.

If anyone had realized at the
beginning just the proportions
which the purchase program would
assume, or the area in which it
would be necessary to conduct it,
the work could have been carried
on in a much more orderly man-
ner, definite allotments could
have been made, and many of
the inequalities now existing could
have been avoided. It is realized
in many cases County Agents,
State Directors, and other con-
cerned with the purchase pro-
gram have been embarrassed by
the abrupt discontinuance of pur-
chases in certain States and
counties, and that Agents are
being subjected to considerable
unmerited criticism from this
cause.

This difficulty is greatly re-
gretted, but do not see how it
could have been avoided in view
of the progressive nature of the
drought, and the development of
the purchase program.

WE HAD A HARD FREEZE TONIGHT

Your Gas Company Would Be Ready To Meet The Emergency

It is not likely that there will be freezing weather for several weeks because the winter season is ordinarily delayed until the month of November. Yet, we plan and keep ready for the emergency. We have just as much gas for delivery to your stoves and your every need in the month of August as we do the coldest month of the year.

It costs us money to provide this service, of course, yet that is just one of the obligations we assumed when we were allowed the privilege of serving patrons of this city. It is our pleasure to be ready, always, to give you the service you want and are entitled to.

Your gas company is glad to say that we are ready—today—this week—every day and every month in the year to supply the demands of all the domestic consumers, individual demands or any other requirement where a steady flow of natural gas is needed.

Yes, if a hard freeze does come tonight, tomorrow or next week or next month, remember we will be ready. Dismiss your heating worries from your mind if you are using natural gas, because we'll be ready to serve you, twenty-four hours every day regardless of what your demands may be.

FARMER MULLIN WOMAN CHARGED IN BROWN DEATH

Mrs. J. M. Farmer, former Mullin woman, shot and killed her husband at their home near Brownwood Friday. Following is an account of the slaying from the Brownwood Bulletin.

A charge of murder was filed in justice court shortly before noon Saturday against Mrs. J. M. Farmer as a result of the fatal shooting of her husband, 45-year-old dairy employe, at their home at Williams Dairy, three miles south of Brownwood, Friday afternoon. The shooting occurred about 1 o'clock and Farmer died at 5:40 at a Brownwood hospital.

Bond in Mrs. Farmer's case was set at \$10,000 which was not been perfected Saturday afternoon. She was being held in the Brown County jail.

Farmer died from a wound in his back caused by a charge fired at close range from a .12 gauge shotgun.

Funeral services were held Saturday afternoon at 3 o'clock at Mullin, his former home. The family lived at Mullin until about six years ago when they came to Brownwood.

After the shooting Friday Mrs. Farmer caught a ride with a passing motorist and came to town. She went directly to the city hall and gave herself up. Her statement was taken by county authorities Friday afternoon and she was questioned at length by them Saturday morning before the murder charge was filed. Friday afternoon before her husband died she was charged with assault with intent to murder. This charge was raised to murder Saturday morning.

Before his death Farmer made a verbal statement to officers, saying he was lying on the bed asleep when someone shot him.

"My wife said 'Now damn you, I have got you,' Farmer told officers.

In her written statement Mrs. Farmer said that three months ago a son, John M., Jr., 15, had been forced to leave home by his father who would not allow him to return. She asked her husband Friday morning to allow her son to return home, but he refused, she stated.

"That thing can't ever come on this place and you are going to leave if I have to get a whole army to run you off," Mrs. Farmer said her husband told her when she asked him to allow their son to come home. She also stated that her husband had beaten her on numerous occasions. Mrs. Farmer told of her husband lying down on the bed and of her getting a shell from a trunk, loading a gun and shooting him. She left the gun in the yard as she started to town, she said, in completing her statement.

A daughter, Jewell, 19, senior in Brownwood High School, also made a written statement in which she said she had not heard her parents quarrel recently. She did say that her father came to Mullin where she was staying last summer and told her of her brother being forced to leave home. Her father told her, she said, that he thought it would be best if her mother also would leave home.

A brother of the slain man, S. S. Farmer, who had been living at the dairy, told officers he was away from the house at the time of the shooting. A statement from the son, John, also was taken.

It was indicated Saturday that the question of sanity would probably be raised in Mrs. Farmer's case.

Farmer is survived by four children, three daughters and a son. His mother, Mrs. J. L. Farmer of Mullin, and other relatives also survive. He had lived in Mills county most of his life.

MAY SCHOOL HAS BIG ENROLLMENT

The May Public School has an enrollment of 450 students and employs 14 teachers this year and is one of the largest school systems in Brown County outside of Brownwood.

Horace White, formerly of Hasse, and Principal of the Sidney High School before he went to May seven years ago is superintendent of the school. The May school has nearly doubled in size since he became superintendent.

Twelve units of affiliation were granted the May High School last session and this year full affiliation is being applied for.

The May High School boasts a football team, known as the Tigers, and have lost only one game out of four played so far this season. Weldon and O. B. Chambers are the coaches.

New machines, curtains, screens and other equipment have been added to the Home Economics Department and the girls are studying clothing this semester under Miss Geraldine Chapman.

The girls in the Physical Education Class under the direction of Miss Chapman and Mrs. Morrison, have launched a clean-up campaign of the school property in connection with their health education program.

The school also boasts of a Vocational Agriculture Class and a F. F. A. Chapter.

One of the first entertainments of the school year will be given Halloween night when the faculty will present a play, "So You Are From Missouri." Supt. White will play one of the leading roles.

DRAMATIC CLUB TO BE RE-ORGANIZED AT VAN DYKE TONIGHT

Scale Station Is Now Completed On Highway 19

The first "scale station" to be built by the State Highway Patrol in co-operation with the State Highway Department has been completed at the junction of Highways 10 and 129, a short distance east of Brownwood.

The station consists of a concrete box containing scales for weighing trucks and a hard surfaced driveway. When patrolmen sight a truck that appears to be overloaded they take it off the highway and weigh it.

Several other stations will be built.

The scale stations are to be named in honor of members of the highway patrol who have been killed in the service. The station at Brownwood has been named for E. B. Wheeler, one of the two patrolmen killed near Gapevine by Clyde Barrow and Bonnie Parker.

A state law requires that trucks going from town to town be not loaded heavier than 7000 pounds.

Indian Reserves Beat Comyn In Game Thursday

The Comanche Indian reserves took an easy game by a score of 25 to 6 here Thursday of last week from a fighting Comyn football eleven, which was organized this year.

Williams and Cloud held the spotlight for the little Indians while Tolliver and Slaughter starred for the Comyn crew.

The battle reached a climax in the second half when Slaughter, Comyn half, circled a third string Indian end, broke into an open field, outdistanced his pursuers, and crossed the last stripe standing up after a beautiful 40 yard dash. This touchdown gave the Comyn lads their only counter.

The Indians started their scoring barrage in the second quarter when Capt. Little plunger over the line for a touchdown. Williams failed to convert.

The Indian Reserves again placed the ball near the final marker in the second period when Newsome pulled down a pass for a gain of 20 yards. Little repeated his scoring plunge to further the Reserves lead by 6 points.

On a reversed end run in the second half, Cloud chalked up another counter for the Indians. This time the trial for extra point was successful when the Indians faked a place kick and passed across the line to Gray.

The leather was in Comyn territory during practically all of the tilt.

Comanche started on the fourth touchdown march with a pass completed by Cloud good for 13 yards. Gray squirmed through the Comyn line for a 10 yard gain. Cloud then crossed the goal on a 12 yard pass.

Comanche Reserves line-up: Ends: Bradshaw and Cloud; tackles: Wilhelm and Barrett; guards, Ruth and Smith; center, Johnson; quarter, Capt. Little; halves, Newsome and Williams; full, Grav. Substitutes: Hicks, Coker, Edwards, Slider, Huett, Cauley, Isham, and Stewart.

More About Indians To Meet (Continued from First Page)

Leon squad only one first down and that was registered late in the struggle with nearly all the first string men on the Dublin bench.

It was said on the sideline at De Leon Friday by a Dublin fan, that the Lions have two old scores to settle with the Comanche team today. One is the 72 to 0 score made by the Indians at Dublin in 1931 when Wetzel, Marshall, Masters, and others of the Regional championship team made the Lions look like a primary grade team and the other was a score made by the Indians nearly 20 years ago when the Lions were shut out 104 to 0.

As far as statistics go, the odds favor Comanche, if history is to repeat itself. In all the years that the two teams have met, the Lions have only defeated the Indians, once or twice. With Buster Brannon, former T. C. U. star, head coach at Dublin, the Lions have any of the Southwest Conference plays that have put T. C. U. to rank high in football in Texas and the Southwest the past few years. The Lions run the plays with machine-like precision and the ball carriers are artists at following their interference. So deceptive are their plays that they scored on the first play following the kick off at De Leon.

The outstanding ball carriers for the Lions are Wilkinson, Barrett, Reid and Bradford.

Their starting line-up probably will be: Ends, Mooney and Wright; tackles, Read and Landers; guards, Hamilton and Maikel; center, White; quarter, Barrett; half, Wilkinson and Bradford; full, Reid.

C. R. Carruth Has Lived In Comanche County 62 Years

C. R. Carruth, prominent member of the Comanche County Old Settlers Association, and nearly always one of the speakers at its annual gathering, has lived in Comanche County for 62 years according to a story of his life carried in the De Leon Free Press last week.

It was on October 10, 1867 that Mr. Carruth left Cleburn County, Alabama by wagon train and in just 70 days the cavalcade reached Texas. He came through the wilderness to Texas from Northeast Alabama, the train consisting of four ox-drawn wagons and one hack and carried members of four families. The four families were those of W. T. Carruth, G. W. Roberts, Jesse Barker and Napoleon Ross. Four single young men made the trip. They were W. H. Nunnely, N. J. Pounds, A. J. Bowman and M. Barker.

The party first settled in Hill County and remained there four years. The elder Carruth had sold his farm in Alabama for \$2000 in gold and bought a farm near Hillsboro for the same amount. In 1872, the farm was sold and the family moved to Comanche County along with the others who had made the trip with them from Alabama and formed a settlement near De Leon where their descendants still live.

Uncle Charlie Carruth, now 86 years of age, was a youth of 19 when he left Alabama.

More About Barrett Heads Firm (Continued From Page 1)

For the past six years he has been associated with Montgomery Ward & Company, and for two and one-half years of that time he was dry goods supervisor of all stores in Texas, making his headquarters at Fort Worth.

He was then placed in charge of the store at Vernon and then was transferred to Austin where he remained a year before going to Corpus Christi eight months ago. He remained there until coming to Brownwood this week to succeed L. S. Trotter, former manager of the store.

He has two children, Mary Elizabeth, 11, and Lloyd, Jr., nine years old. Both Mr. and Mrs. Barrett and the two children are members of the Methodist Church.

Likes Fishing and Golfing. He is a great fisherman hunter and golfer. He says fishing is his great sport, and during the summer months while at Corpus Christi he devoted most of his spare time to fishing for the gulf trout and other fish that inhabit those waters. He believes in sports of all kind and says he was glad to get to a town where he could see college football games. He is enthusiastic about the two colleges at Brownwood and will be a great supporter for both of them.

He takes an interest in all kinds of civic life and is a worker in Chamber of Commerce work, according to information contained in a story from The Corpus Christi Caller-Times. He was active in that work there, being on several committees.

One of the biggest Pen Rallies held at the local High School for several years is scheduled to be held in the Auditorium this morning at 8:15 o'clock in preparation for the game this afternoon between the Indians and the Dublin High School Lions.

The public is invited to attend and at least one representative from each business firm in Comanche is urged to be at the meeting Coach Pat Cagle said.
